Teacher Maan and Preppi Staff

by Charles De Guzman

Its August 25, 2008, I'm so excited that I woke up early to prepare for my very first interview. This is with Teacher Maan, the newest teacher in Preppi. She called me at around 10 am. I started my interview by asking her "How are you?" She said she's fine. She just turned 30 last August 07, 2008. She graduated from La Consolacion College.

She became a teacher because ever since she was a small girl she wants to share her knowledge. Her favorite color is pink because it looks girly to her. She likes the number 12 because it is her wedding anniversary. Her favorite food is pasta and she likes ice cream for dessert. Her favorite animal is a dolphin which is also one of my favorites. She doesn't have any favorite song for she likes all songs. She doesn't have so much time to watch any television shows but takes some time to watch the news. It was nice to talk to Teacher Maan. She was very cooperative and patient with me. It was a learning experience. I'm looking forward for my next interview.

Preppi's New Students

by Gayle Nicolas

The new students in Preppi School this year are Marc, Jael, Luigi, Lyden, Aennon and Donna. They were all good to me when they came to transfer to Preppi School. Sometimes I taught the younger ones how to add and subtract. They understood me.

Adorable Marc is 6 years old. He is really smart. Charming Jael is 6 years old like Marc. She writes cursive nicely. They were both accelerated because they are fast learners. Luigi is 9 years old. He is very artistic. Aennon is 13 years old. He is always excited to learn new things. Donna is 12 years old. She has a sense of humor.

Like me, they all enjoy learning in Preppi School.

Meet the Preppi Staff

by Luigi Miguel D. Suarez

Hi! Meet the Preppi staff. Please meet Ate Jutz. She is the preschool assistant. She takes care of the needs of the small kids including my siblings. She also prepares the food for the other staff. Another preschool assistant is Kuya Roy. He is nice to the kids. I would also like you to know Kuya Jun. He is the friendly assistant in the Grade School Department. I like him because he helps us during our Art activities. We also have Kuya Romy who makes sure of our safety in school. All of them help in maintaining cleanliness in our school. Next is Ate Loleng. She is the secretary of Preppi. She takes care of the school files. We also have another staff, we don't see him often but he helps us with the artworks and computer graphic presentations, he is Mr. Soiree.

Now, the teachers --Teacher Jean is the teacher in preschool while Teacher Maan and Teacher Mafe are the grade school teachers. They love children and they teach us well. Sometimes, they switch roles. They are all qualified to teach both levels. Teacher Girlie teaches us how to sing and dance. Of course, we have Teacher Marita, the school president and the Teacher of teachers. She teaches us good manners and other special topics. She also teaches each Preppi staff. Together, they all make Preppi a wonderful school. They are fun to be with and they always join us in our school events. They are like big children playing with us as we learn.
