WEEKLY SPECIALS

PRESCHOOL and Grade School

Science Quest	What's Cookin', Good Lookin'	Savvy Shopper	Clever Banker	Globe Trottin' Traveler
<p>An explosive and exciting exploration that combines smart and sensible science spruced with lots of silliness too. Unlock answers on scientific queries through a multi-sensorial quest utilizing lots of handy tools and gadgets. This course guarantees confidence-building skills and enables the child to articulate and perform science tricks and techniques.</p>	<p>A top fave for both young gals and guys as it provides gustatory delight while learning math concepts and positive behavior. Professional kitchen practices, from learning the labels and tackling the tools, are presented before kids cook up a storm of appetizing proportions. Math becomes delicious and focus and control are a motivation to reach the yummy end goal.</p>	<p>This course educates the child on how to develop life skills while mastering important math concepts. The child will realize that more than an academic subject, math is a tool for daily living. Principles and practice merge in this fun real life undertaking as the child grapples with healthy and wise choices to make, management of funds, accountability and math operations.</p>	<p>Deliberate planning, making careful choices and math know-how will prepare the child on how to save for the future, do financial and learn how the adults manage their funds in the real world. Basic fluency in math operations as well as percentages, decimals and fractions will be reviewed.</p>	<p>Journey to top cities of the world, ride the Preppi Plane and apply the travel sense to have a successful trip. Learn what is involved in traveling from applying for a passport and a visa, booking a flight, how not to get lost in an international airport, understanding international signs and planning an itinerary, fashion sense for different time zones, etc.</p>
<p>Develop science sense and keen appreciation for the Master Builder and Designer of the scientific world we live in.</p>	<p>Mathematics of Character Building and You Measure Up exercises are presented for EQ Boosters.</p>	<p>Involves real world professional accounting, basic math calculations and use of accountable forms like Invoices, DR's and OR's, as well as online shopping.</p>	<p>Real world professional fund management, audit and balancing a checking account, and problem-solving skills will be exercised.</p>	<p>Travelogue and other Geography lessons, reading maps, filling up government forms, Wait Training and Thinking exercises are presented</p>
<p>The child will do a series of science experiments and Do-It-Yourself projects.</p>	<p>Table manners, the art of dining and gracious hosting and serving will be taught in this course as children enjoy their concoctions.</p>	<p>Math grades do not reflect integrity, accountability and ability to make wise choices. This course will instruct children to aspire for such ideals.</p>	<p>The child will be given an option to open his/her own bank account in Pasig if the parent allows.</p>	<p>This is a multi-sensorial course: sights, sounds and tastes of different cultures will be presented.</p>
<p>While all the materials for the course will be provided, some recycled and other items have to be supplied by the child as per science project selected.</p>	<p>Children will be allowed to bring home some of their treats if they choose to have some left overs! Send in food keepers just in case.</p>	<p>Preppi brings in the FUN in these special FUNKY LIFE SKILLS Training, a FUNctional Literacy Series of Lessons. Many children make the grades but fail in functional literacy. It is not enough to learn how to read, write and do math. What is more important is to know how and when to practice theories and skills coupled with high order thinking. Young children learn how to understand adult requirements and forms, and make wise decisions drawn from the basic academic concepts and life skills they learn.</p>
